The motion to dismiss the claim of appeal under MCR 7.211(C)(2) is DENIED. The claim of appeal was timely filed under MCR 7.204(A)(1)(b). In this regard, appellants' motion for partial judgment notwithstanding the verdict (motion for partial JNOV) constituted a motion for "other relief" from the judgment appealed because it sought to reduce the amount of that judgment based on alleged collateral source payments. It is immaterial to the present jurisdictional issue whether the motion for partial JNOV was flawed procedurally or on its merits because such considerations are irrelevant under the plain language of MCR 7.204(A)(1)(b).
